- Bondera is recommended for factory-made flat back or cross-backed tiles. Some handmade or stone tiles with rough or uneven backs, as well as some mosaics attached to face mounted tape, may result in an impaired bond. To ensure proper bond, it is recommended to test questionable tiles in a small area by following the installation instructions.
- Bondera Meets High Performance Rating: ANSI 118.12 Standard for Crack Isolation.
- Protect exposed areas from direct contact with flame.
- \* Bondera does not provide an environment for mold to grow between Bondera and the substrate (wall, counter, etc.). Bondera does not prevent surface mold on tile or grout.
